

A Divine Message

Of Truth, Love, and Hope!!!

It was 9/4/2019, as I was watching reports that Florida was spared of the wrath of Hurricane Dorian and I was thanking the Lord and that is when I received this writing*. There are always two parts to my writings—there is the part that I would refer to as documented prayer from me and then there is what the Lord through the Holy Spirit shares with me (a response.) Sometimes the two parts are completely different; sometimes His answer relates directly to my prayer portion.

At the end of my portion of the writing, after listing all the blessings recently I had been thankful for and my concerns for those in the Bahamas,** I asked: “Lord, would You like to share something in the website—after all it is Your website?”

His reply: “Debbie, Do you hear me? Debbie, Do you really, really hear Me? Debbie, Can you hear Me? Debbie, Do you hear the approaching sounds of war. Nations are preparing as they have never prepared to overtake your nation. This is something I will not allow. What takes place is as I have shared with prophets before—all the destruction will take place in a matter of one hour.*** It is I who tells the water it can come so far and the wind that it can turn one way or another. What is to come to your nation does not come for the purpose of destroying all My people—it is allowed to cause My people to turn their hearts from the ways of the world back to Me, their Heavenly Father, and live their lives by My leading; by the leading of the Holy Spirit.

Just as the sheep knows the voice and commands of the Shepherd, those who are truly My people listen closely to My voice for the voice of the Holy Spirit to guide them; to keep/shelter them from harm from predators and storms. This is My way, Debbie. This is the message I want My people to know.

My purpose is not to harm My people. I gave My life so they would have eternal life with Me in Heaven. I love My people, but they have strayed away from My protection—most no longer seek to hear My voice. They seek after almost everything except Me. They seek after convenience and pleasure. I am just a duty they perform in their lives. I want to gather My people, My children, back to Me as a mother hen gathers her chicks. I want to be their All in All; the One they run to when good things, blessings, come into their lives and they want to share with jubilation. And I want to be the first they run to when the difficulties come and at times seem overwhelming. I want to hold first place in their lives. I want to be their first thoughts in the good times and the bad. I want to be their first loves. I want to be their Heavenly Father and them My children who run to Me as a child runs to a loving parent. Those who run to Me and hear My voice and love Me with their whole hearts, minds, and souls, will hear My voice and be protected and empowered in the coming difficulties in ways they never knew possible.”

*Writings are from the Lord through the Holy Spirit—my prayers and His responses documented over 20 years.

** The reports from over the weekend, today is 9/9/2019, are beginning to reveal the true devastation left by Hurricane Dorian. My heart is so saddened. Our thoughts and prayers are with those who have suffered and continue to suffer so greatly and also those who are there to help them, including those of “Operation Blessing,” from Pat Robertson’s www.cbn.com who show up at most every disaster around the world to help those in need. There are many other organizations to help; just one we know of and we trust.

*** For more info—see “Practical Prepping God’s Way,” the section about David Wilkerson, located at this website. The destruction is to come and go in a matter of an hour; the resulting devastation will last for years and years.

As Hurricane Dorian moved ever so slowly, there were news reports that folks were suffering from “preparedness fatigue” as they waited for the hurricane to hit their area—some for up to a week. We understand that. We seriously started preparing in 2007. However, by Faith, we believe all the Lord has shown us will happen so we prepare, and prepare and continue to prepare. We also know that in 2007 we were not prepared to share with you as we are prepared to share with you today. Even what was some of the best items we could suggest in 2016 in “Practical Prepping God’s Way” is now out of date; there are better items to help you available now and we have updated it as a result. We were not ready, then, to share with you what we share in the website today—these messages/writings. I hope you will review this writing over and over and over again as we have the last week—even getting out the dictionary, if needed, to understand the true meaning of words. We must be “prepared.” We must hear the guidance of the Holy Spirit or at the least listen to those who do. But above all, we must know that God Loves Us All and He has a plan no matter what our eyes see or our ears hear or even our nose can smell, or pain we experience. He will never leave us nor forsake us; He has never left nor forsaken me. And “Lord, help us be reminded to pray for those who have suffered so greatly in the Bahamas.”

Debbie
